Subject: CES: Work Activities for Next Week

Leroy:

We need to discuss crew work activities for next week and what the expectations are for each day and the week. We don't need to be discussing the Lonestar work planned for Wednesday because the SWS crew will not be handling any part of this except for maybe minor offloading of chemical for them.

I need alot of work accomplished while I am gone so we need to line it up and get it done.

Thanks
